

Introduction

This policy will ensure compliance with corporate and Ofsted requirements establishing clearly defined roles, responsibilities and arrangements at a local level.

There are three parts to this Policy: -

1	Statement - Declaration of intent by the Chair of Governors/Headteacher
2	Organisation & Responsibilities - The management structure and defining roles and responsibilities within the school
3	Arrangements - The systems necessary for implementing the Policy (including monitoring and management systems)

Approval Date:	13 th July 2026
Signature:	Kevin King
Date for Review:	July 2028

Statement of local health and safety intent

Good health and safety management will be an integral part of the operation of the school, the governing body, headteacher, employees, partners and all other people with whom we do business. We will meet all the requirements set out in the corporate health and safety policy.

Stow Heath Primary school will ensure compliance with legal standards/approved codes of practice, along with, where relevant, health and safety guidance provided by the City of Wolverhampton Council (CWC). Wherever possible, and where statutory standards and requirements are not in place, the school will meet best practice standards.

It is furthermore the policy of the school to ensure that:

- We will plan for health and safety within our school improvement planning activity.
- Relevant safety actions are included during the staff appraisal process.
- We will develop and maintain local arrangements and procedures that interpret health & safety legislation and guidance that apply to this school.
- We will review with the Governing Body all progress against our plans and take appropriate action.
- We will provide an environment in which school staff can carry out their tasks without fear of intimidation, harassment, violence or the negative aspects of stress.
- We assess and control risks to all school staff.
- All plant, equipment and premises meet appropriate safety standards.
- Appropriate health and safety training is in place for all staff.
- Monitor accident trends throughout the school to further inform the health and safety aspects of the school improvement plan.
- Monitor our performance against plans.
- Copy this statement to all staff members.

The school will expect employees to show a proper personal concern for their own, pupils' and others' safety, and the safety of equipment, by exercising due care and attention and observing authorised methods and codes of practice, including those inherent in professional or trade training.

Signed by

Headteacher: L Scoffham

Chair of Governors: Kevin King

Date: 13th July 2026

Date: 13th July 2026

Organisation & Responsibilities

This section details the organisation and responsibilities required to maintain and continuously improve our school's health and safety management system. The responsibilities and duties for the management of health and safety within the scope of this policy are allocated as follows:

The Governing Body

The governing body of Stow Heath Primary School is responsible for the following:

- a) A school safety policy is produced, and the policy is regularly reviewed in the Governors Monitoring Committee, ensuring that the requirements of health and safety legislation are met, that corporate health and safety standards are met, where relevant, and to promote best practice.
- b) Appropriate information, instruction, training, and supervision to assist all staff, pupils, and visitors to avoid hazards and to contribute positively to their own health and safety whilst on school premises.
- c) The safety of plant equipment, buildings, and safe systems of work.
- d) Safe arrangements for the use, handling, storage, and transport of articles and substances.
- e) A safe workplace and safe access and egress.
- f) A healthy working environment.
- g) Procedures for fire evacuation, first aid cover and other emergency situations are in place.
- h) The safety policies will be brought to the notice of all employees.
- i) Ensuring that the school budget is managed on a risk priority basis, so that health, safety and welfare are maintained.
- j) Ensuring that effective health and safety planning and target setting takes place within the school and that regular monitoring, auditing and reviewing of health and safety performance is undertaken.
- k) Ensuring that all staff are fully aware of their duties and responsibilities and that they are competent to meet these expectations.
- l) Ensuring effective communication with the headteacher, the Children and Young People's Service, staff, parents and pupils in respect of health and safety matters.
- m) Ensuring that the governing body and headteacher recognise and set out the roles of specialists (Health and Safety Officers, Education Advisors, Fire Officers etc.) and the means of effectively liaising with them.
- n) Health and safety issues concerning the school are identified and appropriate action taken.
- o) Ensuring effective communication with the Head Teacher, staff, parents and pupils in respect of health and safety matters.
- p) Regular safety reports are provided by the Head Teacher so that safety arrangements can be monitored and evaluated.
- q) Appropriate facilities for accredited Union Safety Representatives are provided to enable them to fulfil their duties.
- r) All reasonable facilities and information are provided to Inspectors of the Health and Safety Executive and any other health and safety official.

In practice, the governing body will delegate the functions necessary to discharge these responsibilities to the headteacher and senior management team of the school. However, they will ensure that they have adequate monitoring of these functions in place.

The Headteacher

The CWC and School Governors have placed responsibility on the headteacher to achieve the objectives of the health and safety policy. The headteacher undertakes to ensure that all necessary health and safety activities, requirements and standards are undertaken and met, within their area of control. The Headteacher will ensure that:

- a) Policies and procedures with regard to health, safety, and welfare matters within the school are established in writing, and approved by the Governing Body, and that the policies and procedures are known, understood, and followed by all members of staff, including temporary/supply staff.
- b) Any health and safety matters raised, and guidance from Wolverhampton Corporate Health and Safety, are brought to the attention of the Governing Body.

- c) Regular reviews of the safe performance of all departments of the school are undertaken with appropriate action when necessary and are reported to the Governing Body.
- d) Accidents, incidents of aggression, near miss accidents, ill health conditions and dangerous occurrences are investigated and reported according to the Local Authority as well as legal requirements.
- e) Adequate first aid provision is made for staff and pupils and other persons, whilst on school premises and when working away from the school, in accordance with relevant guidance.
- f) Training needs are identified, and arrangements are made for those needs to be met.
- g) Necessary arrangements are made to ensure that Union Safety Representatives can effectively carry out their functions, and that consideration is given to reports on inspections carried out by Safety Representatives.
- h) All parts of the premises, plant and equipment for which the Governors have responsibility for purchase and/or repair, are regularly inspected and maintained in safe working order.
- i) Goods purchased comply with necessary safety standards and that all purchased equipment is safely installed.
- j) Any unsafe items which are reported to the Site Manager and any item which constitutes a health and safety hazard are taken out of use.
- k) Staff and volunteer helpers organising and taking part in visits, journeys and holiday excursions have the necessary knowledge, experience and skills so that they will be aware of, and have made arrangements to deal with, any risks involved.
- l) Working arrangements are agreed with contractors working on the premises and are closely monitored to ensure that the working practices do not endanger the health and/or safety of employees, pupils or other persons working on the premises.
- m) Awareness and co-operation amongst staff with regard to health and safety matters is actively encouraged.
- n) Provide an effective risk assessment process which:
 - o Eliminates accident potential as far as is reasonably practicable.
 - o Regularly reviews and updates risk assessment as appropriate, including post-accident risk assessment.
 - o Conforms to statutory regulations, Local Authority policies and procedures, codes of practice and guidance, and to best practice.
 - o Takes account of individual personal requirements, such as disabled people, individuals with poor literacy skills and those for whom English is a second language.
 - o Pays particular attention to pupils, service users, visitors and contractors who may be unaware of dangers and risks.
- o) Provide the instruction, information, training and supervision necessary to secure the health and safety of all persons under their control.
- p) Ensure that health and safety responsibilities are identified within job descriptions, as required.
- q) Evaluate, monitor and review health and safety arrangements and performance formally once a year, or where there are significant changes.
- r) Ensure that the Local Authority and school governors are informed of any breach of health and safety statutory requirements or Local Authority policy.

The Management Team

The management team will undertake general responsibility to ensure that all necessary health and safety activities, requirements and standards are undertaken and met within their respective areas of control.

This will be done under the direction of the headteacher.

Managers, deputy headteachers, assistant headteachers and any other members of staff with supervisory responsibility will:

- a) Ensure that risk assessments are in place for all activities undertaken in areas under their control and that professional knowledge and input are provided, as required
- b) Ensure that health and safety is considered in routine meetings with staff
- c) Identify any employee health and safety training needs and ensure that these are communicated to the headteacher

- d) Ensure that any new staff receive specific health and safety induction training and record that this has been done
- e) Take immediate appropriate action in respect of any work situation (including contractors) within their control, which they consider to pose a serious and immediate risk to health and safety
- f) Ensure that all injuries, occupational illness, fires, incidents of aggression at work and near misses are immediately reported to the headteacher
- g) Ensure that the headteacher is made aware of any breach of statutory regulations or unsafe practices which cannot be dealt with effectively by them
- h) Ensure that all defective equipment or plant is taken out of use or disabled or made safe until repaired or replaced
- i) Ensure that protective clothing or equipment is issued and used where necessary
- j) Ensure that all areas of work are maintained to a high standard of housekeeping
- k) Respond immediately to all hazards brought to their attention by employees
- l) Undertake appropriate health and safety courses.

Class Teachers

Staff timetabled to be in charge of classes have the following responsibility to assist the Headteacher:

- a) To follow safe working procedures personally.
- b) To ensure the safety of students in classrooms and other areas of the school whilst in their charge and ensure students are provided with health & safety information during lessons as required.
- c) To assist in developing risk assessments and ensuring their classrooms fit for purpose.
- d) To be aware of and to adopt safety measures within their teaching areas.
- e) To request special safe working procedures, protective clothing, guards, etc., where necessary and ensure they are used.
- f) To make recommendations to the headteacher regarding the safety of equipment or tools, in particular any equipment or machinery which is potentially dangerous.
- g) To be aware of emergency procedures in respect of fire, bomb alert, first aid, accident etc. and to carry them out.

Site Manager

The Site Manager will have responsibility for:

- a) Ensuring security of the school site and that the site is clean and tidy
- b) Ensuring that the school fire alarm and equipment are properly maintained and checked regularly
- c) Monitoring of work by contractors on site
- d) that hazardous substances are suitably stored; the COSHH assessments have been carried out, up to date, and the assessment sheets available to staff who need them;
- e) all staff using chemicals have been informed of the dangers from the chemicals they use and the control measures that are in place to prevent them or others from being harmed;
- f) staff using chemicals are informed of the first aid treatment required in the event of them coming into contact with the chemicals;
- g) risk assessments have been carried out on all hazardous activities undertaken by the department i.e. using ladders, entering boiler rooms etc. Assist in the development of other school risk assessments.
- h) Undertake all relevant checks relating to the swimming pool in accordance with training undertaken
- i) the fire log book is up to date and all fire alarm related checks and inspections are undertaken and reported electronically via Stat Shelf.
- j) use and maintain in a good condition all personal protective equipment issued by the school.

Educational Visits Coordinator (EVC)

Follow guidance provided where full responsibilities are outlined:

- a) Ensuring a suitable and sufficient risk assessment is carried out for all educational visits carried out by the school.
- b) Attend training courses and ensure visit leaders are competent and approved to support the planning and running of visits

- c) Undertaking the functions outlined in the DfE publication “Health and safety on educational visits (DfE)” and National Guidance for Educational Visits
- d) The school uses Evolve recording systems.

Employees general responsibilities

Throughout this policy all references to an employee also includes temporary workers, agency workers, work experience, short term contract employees and volunteers. All employees are required to take health and safety seriously and perform their work in such a way that does not place themselves or others at risk. Every employee has a legal duty to:

- Take reasonable care for their own health and safety and that of other persons who may be affected by what they do or do not do.
- Co-operate with their employer in allowing the employer to fulfil their health and safety obligations.
- Correctly use work items or anything provided in the interests of health and safety.
- Not interfere with or misuse anything provided for their health, safety or welfare.
- Provide specialist or professional knowledge required to inform risk assessments in their area.

Employees at Stow Heath Primary School must:

- a) Report any hazard or malfunction to their supervisor. Employees must use all normal lines of internal communication before contacting external enforcement agencies.
- b) Follow all written and verbal instructions they are given to ensure personal safety and the safety of others, particularly pupils and service users who may not have sufficient maturity or understanding to have due regard for their own health and safety.
- c) Use their professional and specialist training to undertake dynamic risk assessments in difficult or emergency situations.
- d) Be sensibly and safely dressed for their particular working environment and conduct themselves at all times in an orderly manner in the workplace and refrain from any form of horseplay.
- e) Avoid any improvisations or shortcuts that could create unnecessary risks to health and safety.
- f) Maintain tools and equipment in good condition, reporting all defects to a supervisor.
- g) Report to a supervisor all accidents, incidents of aggression, work-related ill-health and near misses.
- h) Attend appropriate health and safety training courses and have knowledge of all relevant processes, materials and substances they use
- i) Understand all fire evacuation procedures and the location, position and function of fire safety equipment. Understand the risk assessments in their areas and comply with the control measures arising from them.

Arrangements for health and safety (see local arrangements section)

Document Control

We will develop and maintain local documentation. Changes including re-issues and deletions to local school documentation will be authorised by the Head Teacher.

Co-operation

Local systems and documentation will be implemented following consultation through our school's health and safety governance meetings.

Communication

Local systems and documentation will be held electronically and in a hard copy format which will be made accessible to staff members.

Communication channels have been established for the exchange of health and safety knowledge and information. Where necessary, these communications will be recorded, to include:

- Line management meetings and staff meetings at site;
- Provision of information relating to safe systems of work and risk assessments;
- Communication of advice from schools Advisors and Educational Officers;
- Communication of health and safety bulletins or information from Wolverhampton Corporate Health and Safety;
- Communication of Wolverhampton Corporate Health and Safety and City Council advice, guidance and policies;
- Communications with relevant specialist advisors.

Where health and safety issues cannot be resolved at local level, they will be escalated through the management structure as appropriate.

Financial Resources

The Governors will review the school budget to determine, in the light of past performance, if adequate resources are being deployed to ensure adequate health and safety and will take appropriate action.

Competence

The school has competent persons in place to provide health and safety guidance to cover the areas of induction, identification of health and safety training needs and the provision and delivery of health and safety training.

School staff will continually develop their own competence through CPD activities including health and safety training on induction, refresher training and specific training where necessary, e.g. risk assessment techniques.

Planning & Prioritising (Setting Standards)

School Health & Safety Plans

School health and safety planning will be part of our school improvement planning process.

Planning will be carried out at regular intervals and will involve objective setting, identification of expected outcomes and allocation of resources.

Risk Assessments

Job and specific risk assessments will be carried out by staff within the school in accordance with the relevant local arrangements, e.g. manual handling, fire, hazardous substances, display screen equipment etc.

Local Arrangements

We will develop and maintain a range of local arrangements to achieve specific actions required for health and safety in the school (see local arrangements section)

Measuring H&S Performance

Active Monitoring

Our school management team will oversee active monitoring to include workplace inspections in accordance with our local arrangement for this.

The school will receive monitoring inspections from the following:

- OFSTED
- Health & Safety (Wolverhampton Corporate Health and Safety)

Actions arising from third party audit/inspection will be incorporated within the school action plan with appropriate target dates for completion.

Reactive Monitoring

The school management team will oversee reactive monitoring to include accidents, near misses, and hazard reports in accordance with our local arrangements and report relevant findings to our Governing Body.

Reviewing Health & Safety Performance

Performance indicators used for the review of health and safety performance will include identification of areas where risk controls are inadequate or absent, the extent of achievement of specific health and safety objectives and an analysis of accident and ill-health data.

The school health and safety performance will be reviewed by the school management team quarterly and reported to school Governors.

Auditing/Inspecting Health & Safety Performance

Once the health and safety systems have been set up and introduced into the school it is a requirement that it is regularly checked to ensure that it remains up to date and effective. Health and safety auditing/inspecting will be carried out on a regular basis by the Governors and senior management.

The purpose is to ensure the system remains effective. During the audit, the management procedures shown in the safety policy are checked to ensure that they are still put into practice and that the staff, are aware of them.

Introduction

This arrangement outlines responsibilities for the reporting of accidents, near misses, personal safety incidents and dangerous occurrences across City of Wolverhampton Council.

Under the Reporting of Injuries Diseases and Dangerous Occurrences Regulations 2013 (RIDDOR 2013) City of Wolverhampton Council will ensure that all incidents are recorded and reported, where appropriate, to the enforcing authority. In addition, all accidents reported to the health and safety team will be investigated and where appropriate recommendations for improvements made and put in place to prevent recurrence.

Legal and Regulatory Context

The primary aims of these arrangements is to ensure that the City of Wolverhampton Council fulfils its legal obligations for the reporting of injuries, diseases and dangerous occurrences and for each such occurrence establish how and why the occurrence happened and to identify the corrective measures necessary to prevent reoccurrence of similar or related accidents.

Legal requirements dictate that employers should take all steps reasonably practicable to ensure the health, safety and welfare of their employees and for these employees to co-operate with their employers in their endeavours to meet this requirement. In this respect City of Wolverhampton Council through its organisational health and safety arrangements, aims to ensure so far as is reasonable the safety, health and well being of its employees and other people who may be affected by its acts or omissions.

Responsibilities

Role	Responsibility
School Business Manager	<i>The designated person shall;</i> • Notify the health and safety team by the quickest means possible if the accident results in a fatality or there has been a dangerous occurrence. • Ensure all accidents to staff and pupils are recorded in the school accident book and notify the Health and Safety team of those accidents, incidents and near misses to staff and public (which includes pupils, visitors, clients etc.) where the cause of the accident is related to the way we work, the level of supervision, or the condition of our premises. Accidents arising due to a medical condition, are not reportable. This can be done by emailing the completed IR1 form to healthandsafety@wolverhampton.gov.uk within 3 days of the accident occurring if there is any injury or absence or within 7 days if there is no injury or absence. • Ensure that the health and safety team is advised if a member of staff is absent for over seven days as a result of any work related incident. • In all cases investigate the circumstances surrounding the accident and in appropriate cases carry out a detailed investigation into the accident and its occurrence, putting in place reasonable measures to prevent a recurrence, with the assistance of health and safety team. • Review the IR1 form, ensuring that all the relevant sections are completed appropriately and undertake an initial investigation into the incident, documenting the outcome/action taken to prevent recurrence. The extent of the investigation should be proportionate to the risk/outcome of the incident. • Ensure the investigation and prevention of accidents is regularly reviewed by the Site Manager, Head Teacher and the Health & Safety Governors. • School accident reports will be monitored for trends and a report made to the Governors, as necessary. • Ensure that all staff have been made aware of the arrangements for accident / incident and near miss reporting and have access to an IR1 form. • Copies of reports are maintained in the relevant personal file of the injured.

Employee	<i>The employee shall;</i> • Report all incidents they are involved in immediately to their line manager or as soon as possible after the incident has occurred, and in any case by the end of the working day. • Report all incidents to non-employees (visitors, service users, contractors etc) immediately to their line manager as soon as possible after the occurrence.
Health and Safety Team	<i>The Health and Safety team shall:</i> • Be responsible for notifying the Health and Safety Executive of all reportable incidents notified to them. • Ensure that an appropriate investigation with recommendations is undertaken by the appropriate person, or in appropriate circumstances, assist the school with the investigation and recommendations.

In addition, incidents of work-related violence to staff must also be reported. The H&S Team at CWC is only required to record violent incidents to staff by the public or by other members of staff where the incident is in connection with their work. The following are not reportable.

- Staff on staff incidents (non-school related) – these should be dealt with using the Discipline, Grievance and Capabilities Procedures.
- Staff on public incidents – these should be dealt with using the Discipline, Grievance and Capabilities Procedures.
- Public on public (for example pupil on pupil) incidents – these should be recorded locally as they are outside the remit of health and safety and do not need to be reported to the health and safety team.

Training Requirements

Although there is no specific duty under RIDDOR to provide training the Health and Safety at Work etc. Act 1974 requires that suitable information and training be provided for the purpose of health and safety. This includes accident reporting and investigation.

To give effect to the above arrangements two main levels of awareness and training are required.

Firstly, for all employees who will need to know:-

- Which incidents need reporting
- To whom do they need to report
- How and when to report the incidents
- The legal duties of employees in reporting accidents
- The purpose and benefits of accident reporting

Secondly for Managers and Supervisors who will need to have additional knowledge in:-

- The procedures for notifying the health and safety team.
- The information that must be recorded following an incident.
- Statutory reporting and recording requirements.
- The need and scope of follow up action by managers, the health and safety team and the Health and Safety Executive.

New employees should receive information and instruction in line with the training policy on induction. Existing employees should be trained by short informal sessions within each section by the manager responsible. Management training will consist of a formal/ informal briefing on the law, and Council policy and procedures in relation to accident/ incident occurrence.

Guidance and Information

RIDDOR Reporting – HSE Guidance <http://www.hse.gov.uk/riddor/>

Administration of Medication

APPENDIX 2

It is recognised that teachers do not have any obligation under their contract to administer medication to pupils and that such administration is on a voluntary basis. There is a requirement however under the DfE to assist pupils with medical needs.

The school accepts the need for some pupils to receive medication during school hours for conditions such as diabetes or epilepsy. School follows current DfE statutory guidance '*Supporting pupils at school with medical conditions*' and has in place a current medicines policy*

**The City Councils Public Health Team will be able to provide the latest model medicines policy. Contact: PublicHealth@wolverhampton.gov.uk*

Some pupils in the school are likely to have an asthmatic condition and / or allergies.

Guidelines for dealing with an asthmatic attack or anaphylaxis are found in current DfE statutory guidance '*Supporting pupils at school with medical conditions*' and should be made known to all staff.

Details of all of the pupils in the school who have an asthmatic or allergic condition are contained in the school medical register which all staff have access to.

All teachers should be aware of the location of each pupil's inhaler or epi pen and where spare ones are stored.

The City Councils Public Health Team will be able to provide the latest model medicines policy. Contact:
PublicHealth@wolverhampton.gov.uk

Asbestos

APPENDIX 4

An asbestos management survey has been carried out by competent UKAS accredited consultancy to identify where asbestos containing materials (ACMs) are present within the school.

The significant findings of the survey report have been shared with all staff within the school, using the Councils inhouse asbestos management system.

Contractors are not allowed to start any work (especially that which involves disrupting the fabric of the building) without producing a risk assessment/method statement and having reviewed the asbestos information within the Councils asbestos management system.

Asbestos Re-inspections are carried out annually by a UKAS accredited consultancy, which consists of a visual inspection of all ACMs which have been identified. Re-inspections are completed using the Council asbestos management system and the data is uploaded into the system on completion.

Any areas of the school that are found to have damage to the fabric of the building (where ACMs are identified), are taken out of use immediately and reported to City Assets to arrange the appropriate measures.

Access is permitted to ceiling voids providing they are not restricted access or contain any identified ACMs.

CWC (City Assets) are to be contacted immediately when an uncontrolled fibre release is suspected, who will arrange for the appropriate asbestos contractor to attend site and advise what is required to make the area safe for reoccupation.

Release of Asbestos Containing Materials

In the event of accidental release of known or suspected asbestos fibres, the area must be evacuated immediately (if safe to do so), and if possible sealed off to prevent unauthorised access. A sign should be displayed to inform persons to stay out of the area and the emergency procedures should be followed.

The Head Teacher/Site Manager must be contacted immediately in the event of accidental fibre release, then reported to City Assets who will arrange for the appropriate asbestos contractor to attend site and advise what is required to make the area safe for reoccupation.

Any contractor who is suspected to be carrying out unauthorised work on the fabric of the building must be reported to the Head Teacher/Site Manager.

The school adheres to the separate policy and procedure; *'Responsibilities & Duties for Buildings Safety in Schools'*

Once the health and safety systems have been set up and introduced into the school it is a requirement that it is regularly checked to ensure that it remains up to date and effective. The most common way of doing this is by an audit. Health & Safety Audits are carried out by a Health & Safety Advisor from the LA. The system should be audited regularly and at least once every three years. The purpose is to ensure the system remains effective. During the audit, the management procedures shown in the safety policy are checked to ensure that they are still put into practice and that the staff are aware of them.

The school Behaviour & Learning Manager is Lisa Scoffham

The school has a behaviour policy in place in alignment with “Keeping Children Safe in Education (latest edition)”, this is held by Lisa Scoffham

Blood, avoiding contamination

APPENDIX 7

All staff should be familiar with this procedure before having to handle blood.

- Wash hands first.
- Put on non-permeable disposable gloves.
- Clean any wound as necessary and dress any wound if necessary.
- Dispose of the gloves and wipe or contaminated material in a plastic bag, seal if possible, and dispose of in the main bin.
- Wash hands thoroughly again.
- Record incident in the accident book.

For dealing with the spillage of blood, urine or vomit – see guidelines issued by corporate health and safety team or seek further advice from the school nurse.

Control of Contractors

APPENDIX 8

Contractors are appointed by the LA or directly by the school. Method statements and risk assessments are obtained from the contractors in order to assess their ability to undertake work safely before any work commences.

Contractors are provided with information on any matter that may affect their health and safety while working in the School, including fire arrangements and arrangements for responding to situations of serious and imminent danger such as gas leaks etc. All contractors are required to report to school office/reception where they will be asked to sign the visitors' book and wear an identification badge.

Contractors may need to obtain a 'permit to work' before carrying out some work activities around the school e.g. hot work. Permits are issued bywith assistance from the Local Authority.

..... is responsible for monitoring the safety performance of contractors while the work at school is in progress. Should there be problems with the safety standards this should be reported to the All work is checked at completion.

Prior to new substances being purchased a check will be made (by the person requiring the substance) to see if there is a substance which is less hazardous. When new substances are purchased, material safety data sheets will be obtained from the supplier and the substance inventory updated.

A substance inventory is in place and is maintained by D Hyde.

Hazardous substances should be kept locked away from not in use.

Guidelines:

- Teachers should not keep their own small stocks of hazardous substances e.g. cleaning solutions. Staff room cleaning materials should be kept securely in the appropriate staffroom cupboard.
- Chemicals and cleaning chemicals should ideally be stored in their own container and clearly labelled with warnings showing clearly on the container.
- Never use food or drink containers to store chemicals.
- Keep only small quantities of the chemicals.
- Any spillages should be cleaned up at once.
- Teach pupils to recognise the warning symbols on products, which they may come across on household containers, such as bleach, disinfectants, lavatory cleaners, oven cleaners, paint stripper's etc., and warn of the dangers.
- Ensure protective clothing is available when using chemicals.
- COSHH assessments must have been carried out before using chemicals and the user informed of the dangers and control measures to be in place for that chemical. There should also be suitable first aid arrangements available for treating chemical splashes.

To be read in conjunction with CWC corporate COSHH assessment guidance.

The Headteacher and School Business Manager are responsible for disseminating information on health and safety issues. Staff will be made aware of how they can assess information such as outcomes of inspections and risk assessments, and local procedures for health, safety and fire during inductions and at regular update meetings.

Health and safety will also be a regular item on the agenda of team / committee meetings.

The Health and Safety Law poster is displayed in the main School Office

Where appropriate, the 'Shared Drive' will be used to communicate health and safety information in order to keep the school staff updated on the preventive and protective measures taken by the School.

A copy of the Health & Safety Policy is located on the whole school Teams Channel

The School Business Manager ensures that all new employees know where to find copies of the health and safety policy.

Staff are reminded of this during induction and during termly health and safety updates completed on INSET days or staff training. Staff, receive updates about procedures such as manual handling, working at heights etc. and fire procedures during these meetings.

Temporary/agency/volunteer staff given information about health and safety prior to commencing work or on the day of commencement. Staff are aware of who the competent person is for health and safety advice and how to raise health and safety concerns (verbally if urgent to the designated member of the Leadership group or to the Site Manager).

All, staff are consulted on new procedures in staff meetings and reminders are given at the start of each term. Representatives from shared users (catering and cleaning) of the site can raise health and safety issues to the Head Teacher or Site Manager. Staff; also have access to health and safety documentation in paper format located in the School Business Manager's office.

The responsibility for Health and Safety is delegated to the H&S committee / finance and general purpose committee and will be a standing item on each committee agenda. The Head Teacher will report on school buildings and premises items each term in their report to the Full Governing Body.

Health and safety arrangements for Science, PE, Design & Technology and any other curriculum subjects with increased levels of risks are detailed in individual curriculum statements.

Teaching staff are responsible for the maintenance of safe working conditions. They should anticipate potentially dangerous situations and act to prevent them from developing.

Staff should set an example in maintaining safe working and discipline within the classroom. Work needs to be well planned in order to prevent accidents.

The school has a subscription to CLEAPSS (Consortium of Local Education Authorities for the Provision of Science Services), an advisory service providing support and documentation in science and technology that is recognised by the Health and Safety Executive and the Department for Education. Membership benefits for the school are:

- **CLEAPSS telephone and email helpline:** - Access throughout the year to a team of dedicated subject experts for up-to-the-minute advice and support.
- **Termly newsletter** for all secondary schools and primary science which provides a range of information on practical work in science and technology and on current health and safety issues.
- **CLEAPSS web site** (www.cleapss.org.uk) which makes advice and guidance for science, D&T and art & design, available to all relevant staff on demand, subject to annually-changed log-in details. CLEAPSS is committed to regular review and updating of these resources so that they always offer members the most relevant advice.
- **Hazcards and Recipe sheets**
- **Model Risk Assessments for Technology**
- **CPD courses:** - Access to an extensive range of practical science and health and safety training courses at discounted rates.
- **[Radiation protection service:** Access to a Radiation Protection Adviser (RPA) to meet responsibilities under the Ionising Radiation Regulations (1999)] ***Delete if not applicable to your school***
- **Primary guides** on practical science and technology.

More information on CLEAPSS services can be found [here](#).

CLEAPSS can be accessed [here](#)

Display Screen Equipment

APPENDIX 12

All staff who habitually use computers as a significant part of their normal work (significant is taken to be continuous / near continuous spells of an hour at a time) e.g. admin staff, office manager and Head Teacher etc. shall carry out a self-DSE assessment.

All workstations, chairs, and associated equipment shall comply with the requirements of the Health and Safety (Display Screen Equipment) Regulations 1992 and current British Standards. School office staff will be responsible for checking this when ordering.

Where the results of an assessment indicate a risk to the user of such equipment, all reasonable steps are undertaken by the school to eliminate these risks or otherwise reduce them to avoid the adverse health effects.

Those staff identified as DSE users shall be entitled to a free eyesight test for DSE use every 2 years by a qualified optician.

Where necessary a contribution towards the total cost of spectacles will be provided. Details of this can be obtained from the Head Teacher.

Suitable training and information is given to users of display screen equipment to recognise the hazards associated with non-interrupted use of such equipment and the appropriate precautions to be taken.

The School Business Manager is responsible for co-ordinating display screen equipment assessments.

The school will follow the council's most up to date driving at work policy.

The School Business Manager will ensure that those persons who drive their own vehicle as part of school business have the appropriate licence, insurance, MOT (if applicable) and tax and will record these checks on [agresso] [a spreadsheet specifically designed for this purpose] *delete as appropriate*.

The Head Teacher, or designated representative, will require Staff to access DVLA and give the school a code to enable them to view their licences. Driver's licences will be checked online annually via the Gov.UK website which will be logged in the school office.

Any staff member not processing the above will not be permitted to drive on school business.

Vehicles on the school site - vehicular access to the school is restricted to school staff and visitors only and not for general use by parents/guardians when bringing children to school or collecting them.

The maximum speed limit entering the school is 5 miles per hour. The access from the road shall be kept clear for emergency vehicles. If an event is being held outside of normal school activities a pedestrian gate will always remain open.

Minibuses:

Teaching and other staff who drive minibuses as part of their work must possess a D1* Passenger Carrying Vehicle (PCV) category on their driving licence where it is a requirement in their job description.

Volunteers and other staff members are permitted to drive a minibus under a Section 19 Permit.

*If you obtained a full car driving licence before 1997, you will have a D1 (101) entitlement to drive minibuses. However, should this be the case, before you can drive a minibus you must undergo a competency assessment organised through Fleet Management at Culwell Street.

The staff at our school that are authorised to drive a minibus are: Sarah Burden, Gail Ford, Carol Davies, Tina Lane

Staff responsible for undertaking daily documented checks on the minibus are: Tina Lane/Drivers as they use the minibus

Staff responsible for undertaking weekly documented checks on the minibus are: Drivers as they use the minibus

All defects are reported to: T Lane/L Devine

Where the minibus is fitted with lifting equipment (tail lift) appropriate training will have been received (e.g. MIDAS Accessible) and this must be maintained and inspected in accordance with The Lifting Operations and Lifting Equipment Regulations (LOLER).

Educational Off Site Visits

APPENDIX 14

The EVC for the school are Helen Bunce and Lauren Davis and has attended the Local Authority training.

The Educational Visits Coordinator (EVC) for the school is responsible for:

- Ensuring all category visits (A, B and C visits) are sent to the Local Authority.
- Liaising with the LA to ensure that educational visits meet the employer's requirements.
- Ensuring a suitable and sufficient risk assessment is carried out for all educational visits.
- Undertaking the functions outlined in the DfE publication 'Health and safety on educational visits (DfE)'
- Ensuring All procedures identified in the Management of Off Site Visits guidance are followed including submitting visit forms to the LA.

The school follows LA guidelines for educational visits and has in place a separate Educational Visits Policy. For tailored help and support on adventurous activities or residentials the school utilises the services of Nick Dixon, Off Site Visits Advisor who is either contacted by telephone on 07766 003404 or email nick.dixon3@wolverhampton.gov.uk

Risk assessments will be completed and documented for all off-site visits using Evolve. Where the visits are regular visits, such as to the park or swimming pool, the risk assessment will be completed then reviewed each term or year as necessary.

The following members of staff are trained as Visit Leaders and have attended Local Authority training:

- All teaching staff in school have attended the training

Staff must not undertake any work on electrical equipment or installations, including resetting trip fuses, without receiving sufficient training.

The electricity is to be isolated before any work on the electrical system including the changing of light bulbs.

Before using any piece of electrical equipment, staff must undertake a visual inspection to ensure that the plug tops, leads and outer castings are free from defects. Look for signs of burning, damaged cables, loose covers etc. The electrical equipment must be suitable for the environment in which it is to be used. Only portable or low voltage equipment should be used in outside areas.

Repairs to electrical equipment will only be undertaken by trained and competent persons. Any member of staff identifying broken, damaged or faulty electrical equipment should ensure that the equipment is not used and report the matter to their line manager. Records are retained of testing, maintenance and repair to equipment.

Electrical socket outlets must not be overloaded. The use of extension leads will be minimised.

Be aware of the dangers of trailing cables and do not have trailing cables across walkways. Four way extension blocks should be secured to the wall or computer trolley or placed off the floor where possible to prevent them being tangled in feet. This prevents tripping hazards and damage to equipment.

Damien Hyde at the school is responsible for maintaining an inventory of portable electrical equipment used at school and for keeping this inventory up to date and when new equipment is procured. Portable electrical equipment is inspected and tested by competent persons at regular intervals appropriate to the level of risk but at least every two years.

Fixed wire testing, resulting in an Electrical Installation Condition Report (EICR), should be undertaken at least every 5 years. For schools within the Council's Facilities Management SLA, City Assets will contact the school prior to the due date with a cost to undertake the EICR and seeking permission from the school to proceed.

The definition of what this plan is for; *‘an event – or events – usually sudden, which involve experiencing significant personal distress, to a level which potentially overwhelms normal responses and procedures and which is likely to have emotional and organisational consequences’.*

The plan covers:

- ◆ A deliberate act of violence
- ◆ A school fire or laboratory explosion
- ◆ A pupil or teacher being taken hostage
- ◆ The destruction or serious vandalising of part of the school
- ◆ The death of member of staff through natural causes or accidents
- ◆ A transport-related accident involving pupils and/ or members of staff
- ◆ A more widespread disaster in the community
- ◆ Death or injuries on school journeys or excursions
- ◆ Civil disturbances and terrorism

The schools plan is based on guidance and resources provided by the DFE: [School and college security - GOV.UK](#)

Within the school’s plan there is a flow chart which details whom should be contacted in an emergency. This plan will be reviewed annually by The School Business Manager

Fire Risk Assessment

Fire safety arrangements are managed in accordance with the Regulatory Reform (Fire Safety) Order 2005, as amended by Section 156 of the Building Safety Act 2022. The Local Authority is responsible for ensuring the school receives a regular Fire Risk Assessment that is recorded in full, reviewed regularly, and that the identity of the competent person undertaking the assessment is documented.

The School Business Manager is responsible for ensuring the Fire Risk Assessment is regularly reviewed and communicated to staff and shared users of the school site. The Fire Risk Assessment will be regularly updated to reflect changes within the school.

Fire Evacuation

Fire safety and evacuation procedures are set out in the School's Fire Emergency Evacuation Plan. This plan also details the responsibilities of staff within the school.

In summary:

- Fire drills will be carried out at least once per term. The time taken to evacuate the school will be recorded. If it takes longer than the recognised time investigate and consider carrying out the drill again. The time should normally be less than two minutes.
- Any faults on the systems to be reported to the contractor immediately.
- All checks as defined in the Fire Log Book will be undertaken.

Regular reporting that these measures are in place is a requirement of the LA, whose role is to monitor and assess levels of risk attached to fire safety in its schools. Schools are required to provide a twice termly return to the Local authority to confirm that appropriate measures are in place. The return should consist of the completion of a 'Fire Safety Checks' form and a copy of the Fire Risk Assessment Action Plan and be made using an electronic form accessed via '*Stat Shelf*'

The policy and procedure; '*Responsibilities & Duties for Buildings Safety in Schools*' gives further information about this return and its importance (notably section 4 and Appendix A) which the school adheres to.

Registers must be taken to the assembly point to carry out a roll call.

The fire marshals are: Karen Aston, Emma Coulter, Lindsey Flavell, Lucy Millington, Suki Nagra, Amy Willis, Donna Briscoe, Tina Corns

At the beginning at each school year, teachers make their class aware of the fire procedures.

All electrical equipment that need not be left on, such as, photocopiers, printers and kettles are to be switched off. Equipment needed to be left on should be kept clear of combustible material in case of a fault developing when unattended. Combustible rubbish is to be regularly disposed of and flammable liquids are to be stored properly in order to reduce the risk of fire.

The School has a duty as an employer to assess its requirements for first aid and ensure that there is adequate provision to meet those requirements. To make this assessment of need a first aid assessment has been carried out.

Current first aiders:-

- Karen Aston, K Badial, D Briscoe, D Burden, S Burden, T Corns, E Coulter, E Croxford, C Davies, L Devine, C Eccleston, M Faraci, L Flavell, G Ford, D Hyde, M Kempton, T Lane, S Lee, V Macmanomy, L Millington, A Mincher, J Mynett, E Nicholls, S Okafor, S Norden, D Proffitt, C Stokes, D Windsor, T Faulkner, L Kemp, A Madge, K Sale

In the event of an injury or ill health, the first-aider in the building should be summoned.

School Business Manager/Site Manager/Caretaker is responsible for ensuring first aid boxes are sufficiently stocked.

The School Business Manager is responsible for ensuring first aid training is up to date and refresher training is undertaken in a timely manner.

A list of the qualified first aiders is available in strategic places throughout the school. All staff, including supply teachers are made aware of the first aiders and their location.

Portable first aid kits must be available, suitably stocked and taken on all visits away from the school.

In the event of a more serious injury, such as:

- unconsciousness;
- severe bleeding;
- object stuck in throat;
- deep cut that may require stitching;
- suspected fracture;
- severe asthma attack;
- severe reaction to bites or stings;
- swallowing or suspected swallowing of toxic substance;

Dial 999 and ask for an ambulance. If the first aider considers it necessary, the injured person will be sent directly to hospital (normally by ambulance). Parents and/or guardians will also be informed. No casualty should be allowed to travel to hospital unaccompanied and an accompanying adult (a first aider) will be designated in situations where the parents cannot be contacted. Health care plans are in place for those pupils with complex medical needs e.g. chronic or on-going medical conditions (e.g. diabetes, epilepsy, anaphylaxis etc.). These plans are reviewed annually, and written precautions/procedures made available to staff. Staff undergo specific training related to health conditions of students and administration of medicines (e.g. diabetes, epilepsy, anaphylaxis etc.) by a health professional as appropriate.

Flammable Substances

APPENDIX 19

The school do have some flammables, particularly flammable liquids. Some cleaning items, paints and associated solvents are flammable. Where these items are used, no large quantities are stored.

Deliveries and orders will be kept to a minimum.

Where such items are required in the school, they will be stored in a suitable, locked metal cabinet in the site managers office.

Health and Safety Assistance

APPENDIX 20

To satisfy its legislative requirements of having access to a competent person, the school seeks the assistance of the Local Authority health and safety department. This department will provide advice and guidance on health and safety law and what the school needs to do to comply with that law. Other relevant agencies such as police, fire service etc. will be asked to provide guidance, advice or inspection as appropriate.

The school are working towards developing proactive management systems for recorded site inspection checks to be undertaken and have adopted and embedded the LA policy; *'Responsibilities and duties for buildings safety in schools – Policy and Procedures'*

Periodic site inspections are also undertaken by the LA.

Statutory inspections such as those for the lift, mechanical stage, boiler, ventilation system etc. are arranged through Wolverhampton City Council. Certificates of the conformity are retained by WCC on the portal.

Health and safety induction will be provided and documented for all new employees, temporary workers and contractors. A signed and dated copy of the induction for staff will be held on their individual personnel file.

The Head Teacher is responsible for ensuring all staff, are provided with adequate information, instruction and training and identifying the health and safety training needs of staff.

All employees will be provided with appropriate training to enable them to carry out their responsibilities and work in a safe and efficient manner and in particular:

- Induction training in the requirements of this policy.
- Update training in response to any significant change.
- Training in specific skills needed for certain activities, (e.g. use of hazardous substances, work at height etc.)
- Refresher training where required

Training records are held in personal folders, and in a lockable cupboard and the school business manager and the headteacher will be responsible for co-ordinating health and safety training needs and for including details in the training and development plan. This includes a system for ensuring that refresher training (for example in first aid) is undertaken within the prescribed time limits. The Head Teacher will be responsible for assessing the effectiveness of training received.

The Head Teacher will:

- Ensure that details of health and safety training are retained and will arrange refresher training as necessary.
- Assess the effectiveness of training received.
- Ensure those H&S training courses that have been identified as mandatory by the LA have been undertaken by the relevant staff members.
- Complete a training matrix as necessary and reports on training to the Governors monitoring committee at least annually.

Each member of staff is also responsible for drawing the Head Teachers attention to their own personal needs for training and for not undertaking duties unless they are confident that they have the necessary competence.

Details of all health and safety training will be recorded in the training folder/database by the Head Teacher.

The school employs the services of external contractors who provide the school with a water hygiene (Legionella) risk assessment and monthly monitoring.

For schools within the Council's Facilities Management SLA, should there be any defects or changes to the water system, Site manager should contact City Assets who can provide support in ensuring that risks are managed.

The site manager should ensure that access is provided to Contractors eg IWS or Midwest, who undertake risk assessments, monthly monitoring and maintenance of the water system.

The Site Manager will ensure that the system is flushed at the appropriate intervals where necessary and this will be recorded in the legionella log book.

The school adheres to the separate policy and procedure; *'Responsibilities & Duties for Buildings Safety in Schools'*

All external agencies and shared users will be advised of the school's health and safety policy, fire procedures and accident reporting procedures. They should carry out risk assessments for their use of the buildings and provide copies to the school. All staff have a duty to monitor the safe use of the buildings by external agencies and should report problems to the Site Manager, School Business Manager or Headteacher.

All lettings will be provided with specific inductions relating to the area being let e.g. swimming pool.

All certification will be obtained from the hirer. All hirers will be required to present a minimum of £5m Public Liability Insurance prior to the hiring.

Lettings are arranged through The School Business Manager

Lone Working

APPENDIX 25

Lone working can be defined as a wide variety of situations including:

- Travelling alone - on foot, by car or public transport
- Peripatetic (mobile) working - visiting people in their homes, visiting business premises, attending meetings or even work on the highway
- Use of interview rooms - effectively, working alone.
- Arriving at or leaving premises - the first person in/last out is in effect working alone
- Out of hours activities - cleaning, maintenance, etc

Lone working is undesirable but in some circumstances it cannot reasonably be avoided. Staff are encouraged not to work alone in school. Work carried out unaccompanied or without immediate access to assistance should be risk assessed to determine if the activity is necessary. Work involving potentially significant risks (for example work at height or working in the boiler room) should not be undertaken whilst working alone.

Office Procedure - Where staff are lone working in offices particularly out of normal working hours they should ensure all external doors are secured to prevent access by any unauthorised persons. If a lone worker discovers an intruder, they must NOT put themselves at personal risk. Where appropriate, ensure their own security and contact the Police or raise the alarm.

Working Off Site - (e.g. when visiting homes) notify a colleague of their whereabouts and the estimated time of return. Staff undertaking home visits to obtain as much background information as possible about the student/family being visited.

Check the Employee Risk Alert System (ERAS) held by the LA by contacting a member of the corporate Health and Safety team.

Avoid lone working, go in pairs. Managers must ensure they are aware of where their staff are working and the procedures to take should a staff member not return to school.

Moving and Handling

APPENDIX 26

Manual handling is considered to be all operations requiring lifting carrying, pushing, pulling.

Generic risk assessments for regular manual handling operations are undertaken and staff provided with information on safe moving and handling techniques.

Staff should ensure they are not lifting heavy items unless they have received training and/or equipment in order to do so safely.

All manual handling activities which present a significant risk to the health and safety of staff will be reported to the Head Teacher and where such activities cannot be avoided, a risk assessment will be conducted to ensure such risks are adequately controlled. A copy of this assessment will be retained in the risk assessment file to be accessed by all.

Moving and Handling

All staff who move and handle pupils have received appropriate training (both in general moving and handling people techniques and specific training on any lifting equipment, hoists, slings etc. they are required to use).

All moving, and handling of pupils has been risk assessed and recorded by a competent member of staff.

Equipment for moving and handling people is subject to inspection on a 6-monthly basis by a competent contractor.

Missing Pupils

APPENDIX 27

If a pupil goes missing and cannot be located, the Headteacher or other senior staff should be informed immediately. The signing-out book and the secretary should be consulted and if necessary a search of the school and local environments should be made urgently . If it appears that the child may have left the school site or have been abducted, parents and police should be informed immediately. Regard will be had to the latest edition of “Keeping Children Safe in Education.

On educational visits it is the responsibility of the visit leader and other staff to maintain a check on pupil numbers and to be aware of the location of pupils at all times. If a pupil goes missing, staff at the venue should be informed immediately, the school and LA contacted.

New and Expectant Mothers

APPENDIX 28

New or expectant mothers are employees who are pregnant or who have given birth within the previous six months or who are breast feeding. Pregnancy places extra strain on new or expectant mothers and closer attention needs to be given to their health and safety at work.

The school is aware that expectant mothers may have health and safety concerns which need to be addressed and a risk assessment will be completed by The School Business Manager.

The same general principles apply in relation to students who are expectant or new mothers and, though the employer's legal duties do not specifically apply in such situations, our policy is that risks must be assessed. Participation by a pregnant student in routine PE and educational visits will need to be reviewed by the school, the student's parent/guardian and medical adviser.

A person specific risk assessment will be conducted with the staff member concerned and any reasonable action necessary should be mutually agreed and the assessment retained on the personnel file for future reference. A generic risk assessment is also in place relating to 'new and expectant mothers'.

Some risks (some chemicals, physical risks and some biological risks) may have more significance very early on in the pregnancy. The risk of damage to the foetus and of miscarriage may be greater and it is therefore important that expectant mothers in some occupations (school lab technicians, for example) give the school as much notice as possible so that adjustment can be made.

The risk assessment will be regularly reviewed throughout the term of the pregnancy and upon return to work. There are facilities within the school for pregnant staff members or those who have given birth within the previous six months to rest, or to accommodate nursing mothers who are breast feeding.

Noise & Vibration

APPENDIX 29

The school will take all reasonable measures to protect the hearing of individual employees who are required to work in designated noise areas or exposed to significant amounts of noise. Hearing protection is provided. The school will also take precautions to protect employees from exposure to vibration by ensuring equipment is maintained and job rotation built into repetitive tasks where this is applicable. When new equipment is purchased, it is the intention of the school to ensure that the noise and vibration levels are as low as possible. Noise and vibration will be considered as part of site maintenance risk assessments.

Premises & Work Equipment

APPENDIX 30

The school have adopted and embedded the LA policy; *'Responsibilities and duties for buildings safety in schools – Policy and Procedures'* which aims to bring together the various reporting requirements for schools into one easy to refer to document that clearly lays out responsibilities, the legal position, and the Council's reporting requirements.

Statutory Inspections

Regular inspection and testing of school equipment is conducted by appropriate contractors according to timescales specified by regulations/guidance available. Records of such monitoring will be kept by the school. For schools within the Council's Facilities Management SLA, relevant records will be held on SAM, the Council's asset management system.

All, staff are required to report any problems found with plant/equipment to the Site Manager on a verbal basis or leave messages in the office. Defective equipment will be clearly marked and taken out of service by storing in a secure location pending repair/disposal.

Curriculum Areas

Curriculum coordinators are responsible for reporting maintenance requirements for equipment in their areas to the Head Teacher.

Gas Safety

All gas appliances will be inspected and tested on an annual basis by a Gas Safe registered contractor.

Electrical Safety

Refer to Appendix 15

Welfare

The workplace is clean and tidy; lighting in the workplace is reasonable and suitable toilets and washing facilities are available. Drinking water is available and there is an adequate supply of both hot and cold running water. Suitable facilities are available for rest and for pregnant women. Floors and traffic routes are kept clean, dry and are non-slippery. Windows can be opened and lower level windows can be safely cleaned. Pedestrians and vehicles are separated at the main entrance with pathway leading to the main reception. Doors and gates are suitably constructed and incorporate appropriate safety device.

Play Equipment

All play equipment will only be used when supervised. Equipment will be checked daily or before use for any apparent defects.

The P.E. equipment will be inspected on an annual basis by an approved contractor.

A visual inspection of fixed outdoor play equipment will be carried out by the Site Manager; a termly inspection will be carried out by an Operational Inspector of Play and an annual inspection by an Annual Inspector of Play (RPII).

Smoking

The site is kept as a non-smoking site this also includes the use of all forms electronic cigarette

Personal Protective Equipment

APPENDIX 31

Protective clothing and equipment will only be provided when an assessed risk cannot be eliminated or controlled by some better means, or where it is required by law. PPE will be provided by the school free of charge following a risk assessment.

Where protective clothing or equipment is provided, employees must make full and proper use of it at all times, and as instructed or following manufacturer's guidelines.

Employees must keep protective clothing and equipment clean, so far as is reasonably practicable, carry out user checks as required, and make it available for maintenance. Any damaged PPE should be reported to the School Business Manager or the School Office.

The school has a separate policy relating to physical restraint in alignment with “Keeping Children Safe in Education (latest edition)”. Risk Assessments will be undertaken should the need arise relating to physical intervention.

Training must be undertaken prior to using any intervention strategies.

Intervention training is recorded, and refresher training carried out in accordance with the training provider’s recommendations. Training providers must be appropriately accredited.

All incidents where a physical intervention has been used are recorded. Other information e.g. factors which may have triggered the event, must be used to review any risk assessments and management plans.

The School will seek to ensure that no employee, student, visitor, contractor or other person is exposed to an unacceptably high level of risk from any of the property, equipment, processes or activities undertaken, for which the school has a legal responsibility.

The Headteacher, School Business Manager and Site Manager are responsible for ensuring that risk assessments are carried out for activities with significant risk and for appointing a sufficient number of risk assessors in order to assist in carrying out the assessments. Risk assessments should be carried out by trained, competent staff. Anyone likely to be affected by a risk assessment must be informed of any risks to their health and safety and must be shown the risk assessments and any control measures that is considered necessary.

Risk assessments are reviewed at least annually by School Business Manager and relevant staff. When an accident/ incident has occurred, the risk assessment will also be reviewed.

Risk assessments are shared with staff as part of the consultation process and are available to view on the Learning Platform.

Generic risk assessments may be produced to assist commonly occurring hazards and risks. Where generic risk assessments are available, staff may use them as a template for a more detailed assessment.

Specific risk assessments relating to individuals, e.g. staff member or pupil are held on that person's file and will be undertaken by The School Business Manager and the appropriate member of staff.

The LA approved risk assessment pro forma will be utilised to record risk assessments.

The school has a subscription to CLEAPSS (through the LA) in science and DT their publications can be used as sources of model risk assessment.

The school is secured throughout the day. Doors should not be left open where this would allow access to intruders.

Visitors.

- Visitors to the school are directed to the main reception by signs outside.
- Visitors, even regular visitors, contractors etc, should sign the visitor's book / tablet at reception. The school issues badges for all visitors.
- If unknown visitors are encountered in the school, or not wearing a valid badge, they should be challenged politely as referred to in the intruder section below.
- Visitors should sign out at the end of the visit.

Valuable equipment.

- All valuable equipment should be security marked and an inventory compiled and maintained by the school secretary.

Personal property.

- Staff are responsible for the security of their own personal items. These can be deposited in the office or staff room during the day. Staff are provided with lockers and are encouraged to store valuables securely in these.
- Pupils are discouraged from bringing valuables into school
- Pupils can ask the secretary to look after small quantities of money they may bring in to school.
- Parents are constantly reminded to identify pupils' clothing by securing nametags to them.

Cash handling.

- The school has a safe in which cash should be stored. The largest amounts of cash are likely to be the regular collections of dinner money. Provision is made for a security company to handle cash on behalf of the school. Cash should not be stored on the premises for longer than necessary.

Intruders.

- In the event of a potential intruder, common sense and a due regard for personal safety and the safety of others should be exercised.
- All legitimate visitors should be identifiable from intruders by their visitors' badge.
- Parents should not enter the building without reporting to the office.
- If appropriate a potential intruder may be challenged, i.e. "Can I help you? Are you looking for reception?"
- If the intruder appears threatening or dangerous the Headteacher or another senior member of staff should be sought. If necessary evacuation procedures may be called upon if this situation is likely to make the situation safer. Police should be called as soon as possible. The safety of pupils is paramount, and they should be moved from the presence of the intruder immediately.

Lockdown Arrangements.

- Where there is a serious and immediate risk to the safety of staff, service users or visitors, a lockdown may be implemented to secure the premises and minimise harm. Lockdown arrangements form part of the schools wider security and emergency planning framework and are intended to protect life where evacuation or normal operating arrangements are not appropriate.

- [Lockdown procedures](#) will be proportionate to the nature of the threat and will be informed by national guidance, including the Department for Education's [Protective Security and Preparedness for Education Settings](#) guidance. Staff are required to follow agreed instructions and procedures during a lockdown and to act in a way that supports their own safety and that of others.

Skin cancer is one of the most common cancers in the UK and the number of cases is rising at an alarming rate. The good news is that the majority of these cases could be prevented. Most skin cancers are caused by UV radiation from the sun. If we protect ourselves from the sun then we can reduce our risk. This is particularly important for children and young people whose skin is more delicate and easily damaged. Sunburn in childhood, can double the risk of skin cancer.

This school has used the guidance promoted through Cancer Research and particularly the Sun-Smart Campaign in order to draw up this policy.

What is the Sun-Smart Campaign?

Sun-Smart is the national skin cancer prevention campaign run by Cancer Research UK. The Sun-Smart schools initiative encourages nurseries and pre-schools to develop and adopt sun protection policies. They are part of a broader campaign communicating effective skin cancer prevention messages to the general public.

The five key Sun-Smart skin cancer prevention messages are:

- Spend time in the shade between 11 and 3
- Make sure you never burn
- Aim to cover up with a t-shirt, hat and sunglasses
- Remember children burn more easily
- Use factor 15+ sunscreen

At Stow Heath Primary school we want staff and pupils to enjoy the sun safely. We shall work with staff, pupils and parents to achieve this through:

Education:

- We will talk about how to be sun smart in assemblies at the start of the summer term.
- Parents and guardians will be sent a letter explaining what the school is doing about sun protection and how they can help at the beginning of the summer term.

Timetabling:

- Where reasonably practicable children will play outside out of direct sunlight.

Shade:

- The trees provide summer shade
- Canopies

Clothing:

- Pupils are asked to bring in appropriate clothing i.e. sun hats.

Sunscreen:

- Children encouraged to, have sun-cream applied by parents before school.
- Children allowed to, bring sun-cream in but where possible apply it themselves. Staff will assist where required.
- Sunscreen use will be encouraged on school trips

Swimming Pool

APPENDIX 36

N/A

The school has in place arrangements for the management of all trees on site. This consists of:

- Appointing a qualified arborist, who has the necessary competencies and insurances in place, to carry out a 3 yearly inspection of all trees on school property.
- Having regard to any trees not on school site but overhang onto school property.
- Keeping a written record of reports for each tree.
- Taking account of advice given and acting upon the findings and recommendations of the arborist.
- Incorporating tree management into the schools health and safety management / improvement plans and associated grounds inspection records.
- Providing assurance to the LA that appropriate arrangements are in place.

Violence at work is defined as any incident in which an employee is abused, threatened or assaulted by a member of the public, staff, pupil or contractor while they are at work. Such incidents must be reported to the LA using an IR1 form. Each incident is investigated by the Headteacher and School Business Manager in order to prevent a recurrence of a similar incident.

Staff with responsibilities for undertaking risk assessments must consider activities that may result in violence and ensure measures are taken to reduce the likelihood of a violent act occurring. Where it is identified that there is a potential for violence arising from the activity the measures taken could include additional security or training for staff at risk. Staff and their representatives must be consulted on any measures introduced. Regard will be had to the latest edition of "Keeping Children Safe in Education.

Waste

APPENDIX 39

The arrangements for removing waste from the school are reviewed annually to ensure they remain satisfactory.

External refuse bins are chained and stored at least six metres from the building.

Consideration is given to the need for removing clinical waste in yellow bags. Sanitary bins will be emptied regularly by the contractor employed to do this.

Internal waste bins are emptied daily.

All waste material that could cause harm to any member of staff, student or other persons should be properly packaged to prevent injury and disposed of (i.e. all glass should be wrapped in newspaper and securely taped).

Hazardous materials such as chemicals are disposed of using a specialist contractor.

The school are committed to promoting high levels of health and wellbeing and recognise the importance of identifying and reducing workplace stressors through risk assessment, in line with the HSE management standards. In addition, the Headteacher operates an 'open door' policy and encourages staff to discuss any concerns or issues they may have with him / her.

All staff have 'One to One' meetings with their line manager, at least annually.

Regular team meetings are held, where staff are encouraged to voice their opinions and raise any concerns they may have.

Staff absence is monitored and the School Business Manager holds 'back to work' interviews following staff absence.

By its nature employment will bring times of stress and pressure to employees. Governors and the Headteacher have a duty to minimise levels of stress caused by work and assist staff in maintaining work / life balance. Life events can also contribute to levels of stress and anxiety.

All staff are encouraged to discuss situations when they feel that the level of stress they are feeling is detrimental to their health and wellbeing. All staff should be aware that stress is not a sign of weakness and that it should be discussed openly. Appropriate support will be given to staff that need it.

Work related stress and wellbeing will be considered as part of the risk assessment process.

Work Equipment

APPENDIX 41

The Site Manager is responsible for ensuring that all equipment supplied for use at work is suitable for its intended purpose and maintained in good working order with records of maintenance being kept.

Manufacturer's or supplier's instructions are retained and where necessary staff are provided with sufficient instruction and training in the safe use of equipment.

Staff are responsible for:

- Working in accordance with safety procedures.
- Not tampering with any safety equipment provided.
- Reporting any faulty equipment to The Site Manager and clearly identifying the equipment as being out of service. Defective equipment will be clearly marked and taken out of service by storing in a secure location pending repair / disposal.

Personal items of equipment (electrical or mechanical) should not be brought into the school without prior authorisation and will be subjected to the same tests as school equipment.

Heads of department are responsible for ensuring maintenance requirements for equipment in their areas is identified and implemented.

Working at Height

APPENDIX 42

All work at height will be risk assessed, planned and carried out by competent persons using the most appropriate work equipment which is properly inspected and maintained. Work at height will wherever possible be avoided.

When working at height for short durations (including accessing storage or putting up displays) appropriate stepladders or kick stools are to be used. Staff must not climb onto chairs or tables to do this.

Staff will be provided with information and instruction in the use of step ladders to ensure that they are aware of the correct use.

All equipment for work at height will be logged and an inspection programme implemented by the Site Manager and documented.

Work at height will not be undertaken whilst lone working.

The following staff members have attended training in Work at Height:

- Damien Hyde
-
-

The following staff members have attended training in 'The Safe Use of Steps and Ladders':

- Damien Hyde
-
-

The following staff members have attended PASMA training:

- N/A

Young and Inexperienced Workers (including Work Experience) APPENDIX 43

A 'young person' is defined as anyone who is under 18 years old.

The school will ensure that young persons are protected from risks to their health and safety as a consequence of their lack of experience, absence of awareness of existing or potential risk or the fact that they have not yet fully matured. Risk assessments for work activities will be carried out for every young/ inexperienced person before they start work.

Young people are likely to need more supervision than adults. Good supervision will help us as a school get a clear idea of the young person's capabilities and progress in the job and monitor the effectiveness of their training. Induction and training will be tailored to the tasks the person will be undertaking.

Work experience:

Our school do have students on work experience and understand we have the Secondary responsibility for the health and safety of the student and should be managing any significant risks. Risk assessments, induction and training will be provided, and a member of staff assigned to the work placement student as a Mentor.

Temporary Workers:

All agency or temporary staff will be inducted by Office Staff. A brief induction will be given covering fire procedures, first aid, accident reporting and welfare arrangements. In addition to this risk assessment that relate to the staff members area of work will be covered.
